

## CyberStore for SYSPRO

### Overview

To provide a comprehensive website engine to sell stock items online with real-time, integrated e-commerce shopping cart capabilities that meet a company's Business-to-Consumer (B2C) and/or Business-to-Business (B2B) requirements.

### The Value of CyberStore for SYSPRO

- Offers the complete shopping cart experience
- Create an unlimited list of product categories to match how you want your products presented
- Enhanced product descriptions and images help market items being sold
- Online product search, including customer stock code cross-reference, makes items easier to find
- Current list price or customer specific pricing is applied
- Show quantity availability in real-time
- Sell in multiple units of measure
- Supports multiple currencies
- Flexible shipping calculator allows you to base shipping costs on order value, volume or weight
- Intuitive, efficient and secure checkout process
- Accept all major credit cards with Authorize.net or VeriSign Payflow Pro Gateways
- Improve throughput by receiving orders directly into SYSPRO
- Reduce data capture errors by eliminating double entry
- Improve customer service by automatically emailing order confirmations to customers
- Provide online order status to your B2B & B2C customers
- Allow customers to Review Order History online
- Save Cart feature allows customers to keep track of items they like to re-order
- Promotional coupons generated to provide online incentives
- Allow site visitors to store account preferences
- Powerful content engine provides a dynamic user experience and allows the web designer complete control of the site's look-and-feel
- 100% Microsoft .NET architecture

### Complete Management Console

- Maintain categories and items through the powerful Management console
- Easily build catalog view lists per customer class
- Manage the creation and redemption of online coupons
- Manage customer accounts
- Manage online product descriptions and photos
- Establish different payment methods
- Limit items available and payment methods per customer

## CyberStore for SYSPRO cont...
